Heavy Duty Storage Racks

Heavy Duty Pallet Racks

Slotted Angle Racks

Industrial Purpose Trolley

Heavy Duty Racking Systems

Heavy duty pallet rack is the most popular and economic storage system at present. The pallet rack is mainly used together with pallet and the common forklift. It is very safe and convenient, can make full use of warehouse space. Goods are packed on the pallet, then the pallet is picked up from racking by forklift easily and freely. It is widely used in warehouse, supermarket, distribution centers and other logistic places.

Advantages

Simple Structure And Operation

Very Little Height Space Is Wasted
